# EX3600-6 SALES BROCHURE

# ROCK-SOLID PERFORMANCE. NO EXCUSES.

#### **WORLD-CLASS MINING EXCAVATORS.**

It's no coincidence that over one-third of all hydraulic mining excavators working across the world are Hitachi. All of our excavators, like the EX3600-6, are engineered to give you efficiency, reliability and durability for all kinds of jobs. You get strong horsepower, efficient engines, comfortable cabs, advanced hydraulics, tough frames, powerful arm- and bucket-digging forces and more. When you choose the EX3600-6, you get a...

RELIABLE WORKHORSE.

Bucket Passe	s to Dump Trucks										
	Truck	Nominal Payload	<b>Bucket Capacity</b>	Passes to Fill

# MAXIMUM PRODUCTIVITY, RELIABLE PERFORMANCE.

#### **WORK ANYWHERE, ANYTIME.**

The EX3600-6 is built to tackle your tough jobs. A fuel-efficient, Cummins QSKTA60-CE engine provides powerful performance with an Engine-Pump Control (E-P Control) system that efficiently adjusts power to your load demand. The advanced hydraulic system tops the industry for smooth, efficient combined operations of the front attachment and swing, delivering quick cycle times. This system, combined with the Hitachi-patented auto-leveling mechanism and large bucket capacities, contributes to efficient production. The EX3600-6 pairs well with the EH3500-AC3 and EH4000AC-3 trucks and is available in a backhoe or front-shovel configuration. Add the EX3600-6 to your fleet, and you get...

MAJOR PRODUCTION.

# ■ Powerful Engine. A Cummins QSKTA60-CE diesel engine meets U.S. EPA Tier 2 emission regulations.

#### Efficient E-P Control.

The computer-aided Engine-Pump Control (E-P Control) system senses load demand and adjusts power to the work being performed.

#### Large, Efficient Bucket.

The large bucket is shaped specifically to enhance digging and loading operations. Its sharp tilt angle helps boost operating efficiency by allowing the operator better use of the bucket digging forces, and after digging, keeping more of the material in the bucket while loading the haul truck.

#### Auto-Level Mechanism.

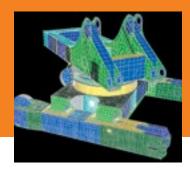

An exclusive Hitachi feature available on front shovel attachments, the one-lever leveling control boosts productivity through efficient operation of the bucket through the dig cycle.

# BUILT TO PERFORM. BUILT TO LAST.

#### **TOUGHNESS BUILT IN.**

The EX3600-6 is designed and built with strength you can count on. Toughness is built-in with the rigid box design and integrated cast steel structures into the center track frame. High-mounted travel motors are guarded against rock damage, and strategically positioned oil coolers are designed to give you more uptime. Add it all up, and the EX3600-6 gives you...

#### **DURABILITY THAT DOESN'T QUIT.**

■ The rigid box design resists bending and twisting forces, giving you stability and strength on any job.

■ High-mounted compact travel motors are protected from rock damage. Optional travel motor guards provide an even higher level of protection from damage.

■ The cast steel structures, integrated into the center track frame, assist in avoiding stress concentration and increase reliability.

Rugged track links include roller guides to help extend service life.

Four oil coolers are strategically positioned far from the engine radiator for even better cooling potential.

■ With constant correct track tension, travel is automatically stopped if the nitrogen gas accumulator pressure exceeds a preset level. Alert information and countermeasures are indicated on the multi-display LCD monitor.

- The sturdy cab protects operators from falling objects. The cab's top guard meets OPG Level II (ISO) standards. The entire cab sits on a package of fluid-filled elastic mounts that absorb vibration for a more comfortable ride.
- The 6.83-meter (22.4 ft.) high, forward-sloping cab provides a clear view of the work site even when loading trucks.
- The air suspension, multiposition seat can be customized to the operator's needs and adjusted according to operator weight.
- The well-insulated, pressurized cab keeps out dust and is air conditioned.

# COMFORT BUILT IN. DOWNTIME TOSSED OUT.

#### **EFFICIENT AND SAFE CAB.**

The EX3600-6 cab is designed to keep operators as comfortable, efficient and productive as possible. The well-insulated, pressurized cab keeps dust out while maintaining a comfortable temperature thanks to a highly efficient heating/air conditioning system. Operators of all sizes have plenty of legroom and storage space with the cab's ergonomic design, which helps operators stay productive even on long work shifts. With the EX3600-6, you get...

**EXTENDED PRODUCTIVITY.** 

■ Electric joystick control levers provide precise and almost effortless operation.

■ The multi-display, color LCD monitor provides machine data, operating status and alerts at a glance. The monitor can be preset to indicate replacement intervals for engine oil, hydraulic oil and filters.

Four optional outside cameras can be mounted around the machine for enhanced visibility and help eliminate blind spots.

# MINIMIZED MAINTENANCE. MAXIMIZED PERFORMANCE.

#### HIGHER UPTIME.

When it comes to maintenance, the EX3600-6 provides big advantages. The simple servicing, inspection and cleaning of the EX3600-6 reduces costs and allows you to focus on finishing jobs. This excavator features easy-to-check sight gauges and fluid reservoirs, quick-change remote-mounted filters, advanced self-diagnostics and extended filter replacement intervals. When you're operating an EX3600-6, you get...

#### **LOWER OPERATING COSTS.**

■ Folding stairs with wide steps allow for easy accessibility, servicing and maintenance.

■ The centralized filter system makes inspection and maintenance quicker and more convenient.

A contamination sensor alerts the operator before it's too late of accumulated contaminants in the oil that could cause damage.

A walkway around the entire counterweight provides easy access to rear areas for faster, safer inspections and maintenance.

Located at the center of the machine, a wide-open service area gives you access to the engine as well as hydraulic and electrical systems.

■ The compartment floor slides down to lower a grease drum can for quick replacement.

# WHAT YOU NEED, WHEN YOU NEED IT.

#### QUICK SUPPORT. NO HASSLE.

At Hitachi, we specialize in excavators and trucks. So you can count on us to respond rapidly when you need support. You'll get the parts you need, the service you want and the customer support you deserve. We stand behind you with a strong dealer network; a skilled factory support team; trained mechanics; and one of the best, most comprehensive warranty and maintenance programs available. We focus on supporting you and...

#### YOUR BOTTOM LINE.

Remote Machine

**Management with** 

Global e-Service.

This online machine management system allows you to access each on-site machine

from a PC in your office.

You can get its operating

information and location to increase productivity.

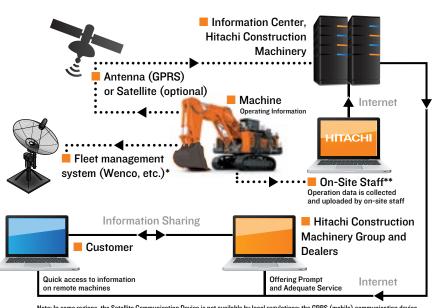

Operating data and log are

sent to a Hitachi server

for processing, and then to customer and dealers.

This system is available

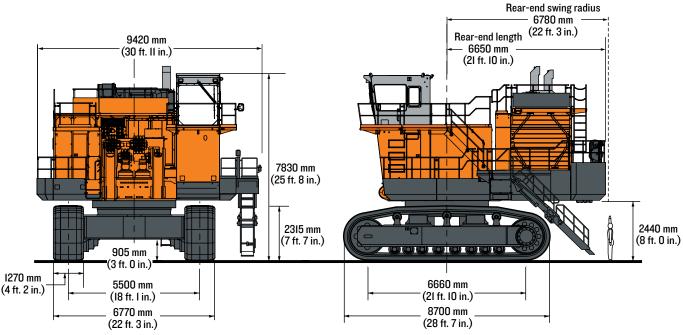

24/7/365.

Note: In some regions, the Satellite Communication Device is not available by local regulations; the GPRS (mobile) communication device is an option for these regions.

<sup>\*</sup> DTU (Data Transfer Unit) (optional) is required for connection to fleet management systems.

\*\*WIU (Wireless Interface Unit) transmits operating data via wireless connection for downloading data.

Batteries	4 x I2 V, 4 x 220 AH	Thermo-guard (temperature de	etector)
Cold starting	Ether aided	Starting condition	Reactor 50% tap
Hydraulic System			

Hitachi's ETS (Electronic Total control System) can achieve maximum job efficiency by reducing fuel consumption and noise levels, while maximizing productivity through the optimization of engine-pump functions with excellent controllability increasing operator comfort.

#### Computer-Aided Engine-Pump Control System (E-P Control)

Main pumps regulated by electric engine speed sensing control system.

#### Optimum Hydraulic System (OHS)

Four tandem-axial piston pump groups (eight pumps in total), supply a four-valve hydraulic system enabling both independent and combined operations of all functions.

#### Additional Features

Fuel-saving Pump System (FPS) minimizes energy loss with superior performance in fine control

Auto-idle system saves fuel and reduces noise

Hydraulic drive cooling-fan system for oil cooler

Hydraulic drive cooling-fan system for radiator

Forced-lubrication and forced-cooling pump drive system

#### Main Pumps

8 variable-displacement, axial piston pumps for front attachment, travel and swing

Maximum oil flow 8 x 500 L/min (8 x I32.1 gal./min.)

#### Pilot Pump

Gear pump

Maximum oil flow 110 L/min (29.1 gal./min.)

#### **Relief Valve Settings**

| Implement circuit | 29.4 MPa (300 kgf/cm²) (4,264 psi) | Travel circuit | 29.4 MPa (300 kgf/cm²) (4,264 psi) | Swing circuit | 29.4 MPa (300 kgf/cm²) (4,264 psi) | Pilot circuit | 3.9 MPa (40 kgf/cm²) (566 psi) |

#### **Hydraulic Cylinders**

High-strength piston rods and tubes adopted. Cylinder cushion mechanisms are provided for boom, arm, bucket and dump cylinders. Bucket cylinders of loading shovel are provided with protector.

Cylinder Dimensions (Backhoe)			
	Quantity	Bore	Rod Diameter
Boom	2	360 mm (14.2 in.)	260 mm (IO.2 in.)
Arm	2	300 mm (II.8 in.)	220 mm (8.7 in.)
Bucket	2	250 mm (9.8 in.)	180 mm (7.1 in.)
Cylinder Dimensions (Loading Shovel)			
	Quantity	Bore	Rod Diameter
Boom	2	360 mm (14.2 in.)	260 mm (IO.2 in.)
Arm	1	300 mm (II.8 in.)	220 mm (8.7 in.)
Bucket	2	280 mm (II in.)	200 mm (7.9 in.)
Dump	2	225 mm (8.9 in.)	130 mm (5.1 in.)
Level	1	360 mm (14.2 in.)	260 mm (IO.2 in.)
Hydraulic Filters			
All hydraulic circuits have high-quality h	ydraulic filters for protection agai	nst oil contamination and long	ger life of hydraulic components. Filters are centralized for convenient maintenance.
	Quantity		
Full-flow filter	5	10 um

DECK MACHINERY
FOR DIESEL ENGINE MACHINE

DECK MACHINERY
FOR ELECTRIC MOTOR MACHINE

#### **Swing Device**

4 high-torque, axial-piston motors with two-stage planetary gear bathed in oil. Swing circle with dirt seals is a heavy-duty, triple-row cylindrical roller bearing. Induction-hardened internal swing circle gear and pinion immersed in lubricant. Parking brake of springset/hydraulic-released disc type. This parking brake is manually releasable.

Swing speed 3.2 min<sup>-1</sup> (rpm)

#### Operator's Cab

The sturdy cab, with the top guard conforming to OPG Level II (ISO), helps protect the operator from falling objects. I800-mm (5 ft. II in.) width, 2I50-mm (7 ft. I in.) height, roomy 7.5-m³ (9.8 cu. yd.) cab with tinted-glass windows features all-around visibility. Air-suspension type, fully adjustable reclining seat with armrests; movable with or without front and swing control levers by slide. Multi-display (267-mm [I0.5 in.] LCD) for centralized information of machine status. Color monitor cameras for rear, right side and left lower views. Three separate pressurized air-conditioning systems.

Noise level 76 dB(A) in the cab at maximum engine speed under no-load condition

Eye-level height 6760 mm (22 ft. 2 in.)

#### Undercarriage

#### Tracks

Shovel-type undercarriage. Dual-flanged-type bolt linkage for side frame and X-form center frame assures durability. Heavy-duty track frame of all-welded, stress-relieved structure. Top-grade materials used for toughness. Lifetime-lubricated induction-hardened track rollers, idlers and drive tumblers with floating seals. Specially heat-treated connection pins. Hydraulic track adjuster provided with N<sub>o</sub> gas accumulator and relief valve. Track adjuster provided with protection device against abnormal tension. Travel motion alarm device.

#### Shovel-Type Undercarriage

Triple grouser track shoes of induction-hardened cast steel

Shoe width 1270 mm (50 in.)

#### Number of Rollers and Shoes (each side)

Upper rollers 3
Lower rollers 8
Track shoes 38

#### **Travel Device**

Each track driven by high-torque, axial piston motors, allowing counter rotation of tracks. Two-stage planetary gear plus spur gears reduction device. Dual-support-type traction device. Parking brake of springset/hydraulic-released disc type. This parking brake is manually releasable.

Travel speeds Low: 0-1.7 km/h (0-1.1 mph)

High: 0-2.2 km/h (0-1.4 mph)

Maximum traction force 1760 kN/179 500 kgf (395,730 lbf.)

Gradeability 58% (30°) maximum

\*Indicates hydraulically limited capacity; numbers without \* indicate stability-limited capacities, in kg. The load point is a hook (not standard equipment) loaded on the back of the bucket. Lifting capacity of the EX Series does not exceed 75% of tipping load with the machine on firm, level ground or 87% full hydraulic capacity. Ratings are based on SAE J1097.

# STANDARD / OPTIONAL EQUIPMENT

For the EX3600-6 equipped with a diesel engine. Key: ● Standard ▲ Optional or special kit

#### 3600 Engine

- 140 A alternator
- Heavy-duty type air cleaner with dust ejector
- Cartridge-type engine oil filter
- Cartridge-type engine oil bypass filter
- Cartridge-type fuel filter
- Water filter
- Radiator reserve tank
- Fan guard
- Isolation-mounted engine
- Pre-lubrication system
- Auto-idle engine
- Emergency engine stop system
- Engine oil reserve system

#### **Hydraulic System**

- Engine Pump control system (EP)
- Optimum Hydraulic System (OHS)
- Fuel-saving Pump System (FPS)
- Hydraulic drive cooling-fan system
- Forced-lubrication and forced cooling pump drive system
- Control valve with main relief valve
- Suction filter
- Full-flow filter
- Bypass filter
- Pilot filter
- Drain filter
- High-pressure strainer

#### Undercarriage

- Travel parking brake
- Travel motion alarm device
- Hydraulic track adjuster with N<sub>2</sub> gas accumulator and relief valve
- 1270-mm (50 in.) triple grouser shoes

#### **Upperstructure**

- Lockable machine covers
- 39 900 kg (87,964 lb.) counterweight
- Hydraulic drive grease gun with hose reel
- Folding stairs with wide steps
- Swing parking brake

- OPG top guard level II (ISO) helps protect the operator from falling objects
- All-weather sound-suppressed steel integrated cab
- Fluid-filled elastic mounts
- Laminated glass windshield
- Reinforced/tinted (bronze color) side and rear windows
- Parallel-link-type intermittent windshield wiper
- Front windshield washer
- LCD monitor display with various meters, pilot indicators, and warning indicators
- Air-suspension seat with automatic weightadjusting function
- Wrist-control-type electric lever with height-adjusting function

#### Cab (continued)

- Electric / hydraulic operation travel pedals
- Electric / hydraulic operation bucket open/close pedals -shovel
- LED type room lamps
- Footrest
- Air horn with electric compressor
- Auto-tuning AM-FM radio with digital clock
- Seat belt
- Hot and cool box
- Storage spaces
- Floor mat
- Air conditioner with defroster
- Rearview mirror
- Evacuation hammer
- Emergency escape device
- Trainer's seat
- Pilot control shut-off lever

#### **Monitor Systems**

#### Meters

- Hour meter
- Fuel gauge
- Hydraulic oil temperature gauge
- Engine coolant temperature gauge
- **Tachometer**
- Engine oil pressure gauge
- Engine oil temperature gauge
- Battery voltage gauge
- Ambient temperature

#### Pilot indicators (green)

- Pre-lubrication system
- Auto-idle
- Travel mode

#### Warning indicators (red)

- Alternator
- Engine stop
- Coolant overheat
- Hydraulic oil level
- **Auto lubrication**
- Tension (Track Adjuster)
- Electric lever
- Emergency engine stop
- Stop valve
- Engine over run
- Coolant level
- Engine oil pressure
- Pump transmission oil level indicator

#### Warning indicators (yellow)

- Exhaust temperature
- Fast-filling
- Fuel temperature Engine warning
- Hydraulic oil overheat
- Stairway position
- Electrical equipment box

#### **Monitor Systems (continued)**

- Pump contamination
  - Air cleaner restriction

#### Alarm buzzers

- Overheat
- Engine coolant pressure
- Engine coolant level
- Fuel temperature
- Engine oil pressure
- Engine oil temperature
- Air intake manifold temperature
- Crankcase pressure
- Pump transmission oil level
- Hydraulic oil level
- Stop valve close
- Fast-filling system panel position
- Stairway position
- Electric lever fault

#### **Data Logging System**

Data-Logging Unit (DLU) continuously records the performance of the engine and the hydraulic system; data can be downloaded by PC

#### Communication system\*\*

- Satellite data-transmitting system
- WIU (Wireless Interface Unit)

- 9 high-brightness (HID) working lights
- 7 entrance lights
- 3 maintenance lights
- 2 cab lights

#### Miscellaneous

- ISO conforming stairs and handrails
- Recirculation air filter for air conditioner
- Ventilation air filter for air conditioner
- 12-V power terminal board
- Stop valve for transport and reassembly
- Lincoln auto-lubrication system for front-
- attachment pins, swing bearing, and center joint Fast-fill fixed panel with Wiggins coupler for fuel, engine oil, engine coolant, grease, pump transmission oil, and swing device oil

3rd Party Fleet Management Interface

- Camera monitor system
  - 4 cameras and 2 color monitors

#### **Optional Equipment**

- Cold-weather package
- Travel motor guard Travel device guard

High elevation application\*

**Connection Kit** 

\*Engineered on request.

\*\*The availability of the system depends on licensing regulations in each country.

See your Hitachi dealer for further information.
